

ROLE OF ACADEMIC RESEARCH IN ENVIRONMENTAL REGULATION

PANEL DISCUSSION

NEMC 2016, ORANGE COUNTY

ACADEMIC INFLUENCE

- Identify 'unknown' contaminants
- Collect occurrence data of emerging contaminants in the environment
- Determine toxicological profile of chemicals and mixtures in the environment
- Work with accreditation agencies to develop standardized analytical methods
- Work with regulatory agencies to implement guidelines and limits of contaminants in the environment

PANELISTS

- **Andrew Eaton (Eurofins Eaton Analytical)**
- **Craig Marvin (Agilent Technologies)**
- **Steven Arms (NELAP)**
- **Robert Wyeth (Consultant)**
