Discussion –
How Does SPE
Fit Into the
World?

Questions for Discussion

- How do you choose the format, disk, cartridge, spin bar, etc...?
- How easy is it to select the product for the application/method, how did you decide?
- How do you choose whether automation is appropriate?
- How does SPE compare to shake outs in time?
- How does the price compare to shake outs/automated vs. manual SPE?
- How do the QC limits compare to other forms of prep?
- What methods does SPE provide an advantage in running?
- What setup/start up issues may be encountered?
